It is based on Dr. Brinkman’s many years as a counselor in private practice, helping people remove the obstacles to moving forward on what is dear to them in life.

#### **Audience members learn how to:**

- Recognize, clarify and stick to their highest priorities.
- Master being here now, and eliminating low priorities.
- Recover time for what is important to them.
- Enjoy the journey to their goals
- Understand how health and energy is connected to feeling in control.

- Recognize and dump pseudo-procrastination

This program is hugely popular because attendees learn personal skills that they can apply to both their work and personal lives. This is a thought provoking, feel-good program, with a depth of content that impacts people’s lives whether they experience it in a full day, half-day or keynote format.
